

## Memorial Glass Keepsakes and Glass Urns

{mosloadposition slideshow}

Unique in design, each hand-blown memorial glass keepsake offer a bright and colorful memorial to your loved ones. By incorporating a small portion of cremated remains in each glass memorial, we bring you a beautiful and permanent reference that has a natural glow that we like to think represents the inherent force incorporated within. Also the solid yet smooth finish offers a natural resting place for your hand and returns a soft touch you may find comforting while reminiscing.

For years the artists of The Glass Forge have delivered unique glass creations and glass urns designed to please the eye through penetrating color and innovative design. It is our pleasure to bring a small amount of joy to those challenged with the loss of a loved one.

The Artists of The Glass Forge

If you have any questions about the memorial keepsakes or urns, please do not hesitate to call or e-mail!
